SUMMARY

Junior Full-Stack Developer with experience in ASP.NET MVC, C#, SQL Server, JavaScript, HTML5, CSS3. Skilled in developing end-to-end full stack web applications, including E-Commerce platforms and database-driven systems, with strong problem-solving, collaboration, and Agile development expertise.

EXPERIENCE

Junior Web Developer – Billing Master Software Ltd. Dhaka, Bangladesh
2025 – Present

- Built 3+ ASP.NET MVC modules, improving internal processing efficiency by 30%.
- Implemented scalable CRUD and database features that reduced user-reported errors by 25%.
- Optimized SQL queries resulting in 20% faster data retrieval.

Executive Member – BRAC University Computer Club Dhaka, Bangladesh
2022 – 2025

- Organized university-wide coding workshops and hackathons with 100+ student participants.
- Collaborated with the web team to maintain club website and event registration systems.

General Member – Dhaka Residential Model College Computer Club Dhaka, Bangladesh
2018 – 2020

- Participated in intra-school programming competitions and basic web development training sessions.

PROJECTS

BD Price Finder – Multi-Vendor E-Commerce Platform Website
Technologies: ASP.NET MVC, Razor View, C#, HTML, CSS, JavaScript, SQL Server

- Created full-stack multi vendor e-commerce platform with user authentication, shopping cart, admin panel, seller panel and payment integration.

BMSL Tracker – Real-Time Employee Location System GitHub
Technologies: HTML, CSS, JavaScript

- Implemented a real-time employee location tracking system for Billing Master Software Ltd., allowing management to monitor staff locations efficiently.

AI-Driven E-Waste Optimisation – Undergraduate Research Research Paper | Dataset
Technologies: Python, ResNet50, Random Forest, HOG + SVM, Supervised Contrastive Learning + Classification

- Developed AI models to predict metal composition and value from e-waste also collected and curated an original dataset consisting 1000 pictures for model training and evaluation.

2D Car Collision Game – Computer Graphics Project GitHub
Technologies: Python, OpenGL, PyOpenGL

- Restructured a 2D car collision game implementing AABB collision detection and Midpoint algorithms for accurate physics and gameplay.

Online Class Survey – Data Analysis

Report

Technologies: Google Sheets, Google Form

- Conducted a survey on university students across Bangladesh and created visualizations to analyze online class feedback and trends.

SKILLS

Programming Languages: C#, Python, JavaScript.

Web Technologies: ASP.NET MVC, Razor View, HTML, CSS.

Databases: SQL Server, MySQL.

Tools: GitHub, Visual Studio, Google Sheets.

AI & ML: ResNet50, Random Forest, HOG + SVM, Supervised Contrastive Learning + Classification.

CERTIFICATES

- **Foundational C# Developer Certification** – Microsoft & freeCodeCamp (2026)
- **Understand ASP.NET Core Fundamentals** – Microsoft Learn (2026)
- **CSS Essentials Certification** – Cisco Networking Academy (2026)
- **Python Essentials 2 (Advanced Python)** – Cisco Networking Academy (2026)
- **JavaScript Essentials 1** – Cisco Networking Academy (2026)
- **English for IT 2** – Cisco Networking Academy | B2 Professional (2026)
- **Legacy Responsive Web Design V8** – freeCodeCamp (2026)
- **HubSpot SEO II Certified** – HubSpot Academy (2026)

EDUCATION

B.Sc. in Computer Science – BRAC University

Dhaka, Bangladesh

Graduation: 2026

Higher Secondary Certificate – Dhaka Residential Model College

Dhaka, Bangladesh

Graduation: 2020

Secondary School Certificate – Ibn Taimiya School and College

Cumilla, Bangladesh

Graduation: 2018

LANGUAGES

English – Professional Working Proficiency | **Bengali** – Native Speaker
